

## **Alternative Route 50 Klm RIDER NOTES**

The map overleaf gives a rough outline of the 50 klm course. Marshals in orange/yellow safety vests will be on duty at major intersections to assist riders to follow the course.

The course is marked with coloured arrows, the 50 klm course being marked in RED.

Riders are to obey all traffic rules and regulations (including to stay on correct side of road when riding as a large group at the commencement). Please note that this is a ride not a race.

On narrow sections of roadway riders should not ride abreast and should show courtesy to motorists in an effort to avoid conflict and maximize safety.

Marshals will assist riders but they will not be controlling traffic. Riders are responsible for their own safety.

Within the grounds of Mt Penang Parklands there are grids to be crossed which have timber ramps to assist but care should be taken.

Police will be on duty at some intersections and patrolling the course. Riders need to obey all directions given by Police.

Riders to stay as a group until the first roundabout. After that riders can set their own pace.
